

KENDALL STARTS NEW SCHOOL ERA

New Buildings, Increase in
Faculty and Big Endow-
ment Shown.

PROSPECTS BRIGHT

New Geology Classes Prov-
ing a Feature; Will
Beautify Campus.

With 200 per cent increase in the enrollment at the end of the first month of school over last year, with prospects for two new dormitories in the immediate future, and a science hall to be ready by another summer, and with a new emergency building under construction and two large buildings leased to care for the present demands; with new departments added in every phase of the institution doing work day and night, and "have all official steps having been taken for the launching of a campaign February 1, 1917, to increase the permanent endowment of the college by \$500,000 it is easy to see that Henry Kendall college is entering a new educational era.

The faculty is very much enlarged with the coming of the new year. The large enrollment demanded the faculty of 22 of last year to be increased to 35. Since school started it has been found necessary to increase the teaching force of both the academy and the college. With the division of large classes and the increase in faculty, classrooms have become entirely inadequate for the present enrollment. Steps have been taken to prepare for the erection of the contemplated science building which will more than double the capacity of the school.

Construction of the new dormitory will be a private adventure of a business man, who will have the dormitory erected, it is reported. Although the definite plans for the contract have not been completed as yet, it is expected that the contract will be let and work on the structure begun in the immediate future. The plan is to have the dormitory ready for the big summer term of 1917, which without doubt will be the greatest gathering of students ever assembled in the eastern section of the state.

Those in charge of the girls' home at the edge of the campus are forming a club, and the life of the home is being made as pleasant as that of a college. The boys' temporary residence is also having aesthetic features put about it.

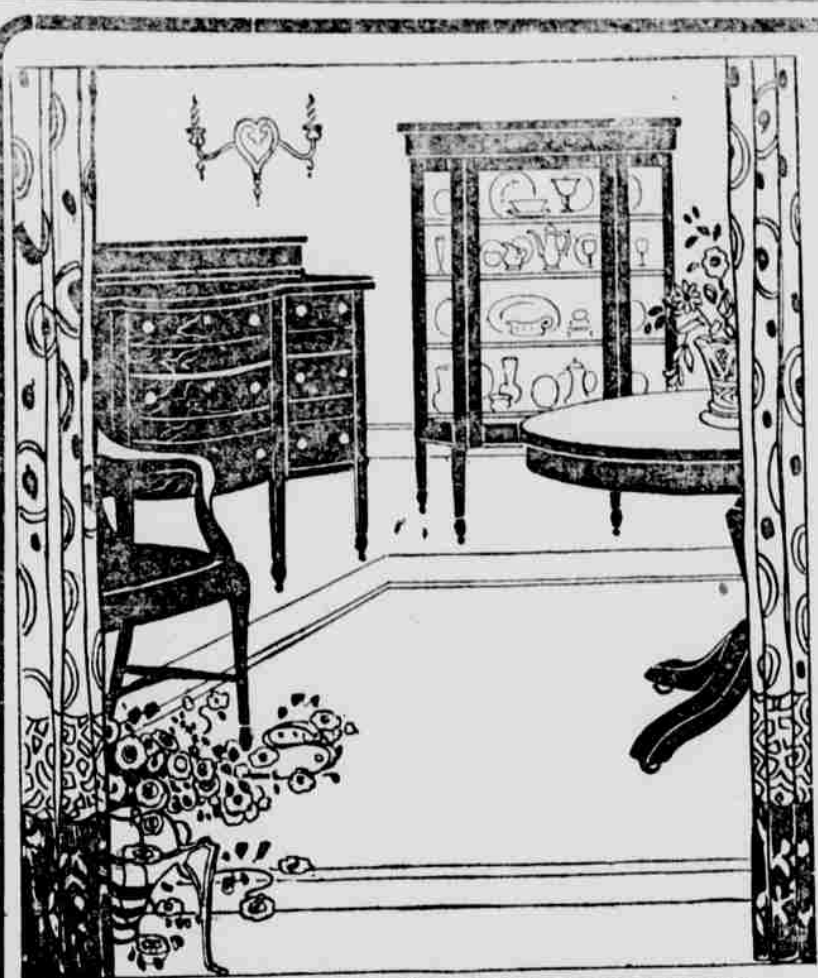

New Department Added

Among the new departments added are manual training, business courses in typewriting and shorthand, printing, domestic science, school and church extension courses, normal teachers training course, and free hand drawing classes free of extra tuition. Besides these new courses the geology department, as well as that of chemistry, education, domestic science, the classics and fine arts have been maintained and increased in facilities.

The Y. M. C. A. and Y. W. C. A. organizations are active this year as never before. At a cabinet meeting Thursday the course and outline of the year's work was outlined, and it was decided that the Y. and Y. W. C. A. would make themselves felt in the school by means of holding a series of the best months of maintaining the high standard of Christian work which the college has the reputation of doing and raising the standard in any way possible. The Y. M. of Kendall is to be no exception but a real factor in building the standards of education and morals in the state of Oklahoma.

The boys' association plans to be a demand when he wanted a piece of Christian service to press the nation and the "Y" would fight.

Closely allied with this work is the work of Fred J. C. Williams, head of the department of country school and church, the Kendall field man, who keeps the road but in his spare time the little red schoolhouse gives the full strength of his services in any way possible to build up community centers where the good people of the

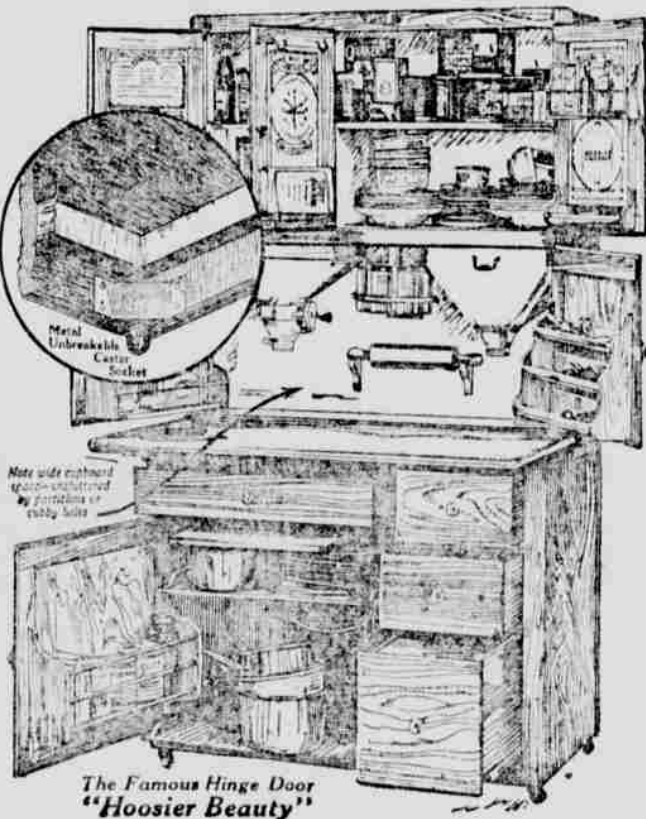

DINING ROOM FURNITURE

We have on display this week a number of Period Dining Room Suites in Mahogany, Oak and Walnut. As a special feature we are offering a Nine-Piece Mahogany Suite in the Adam Period

\$180.00

SPECIAL
A Bissell's Carpet Sweeper This Week For \$3

THE HOOSIER

We Can Tell You About the Hoosier--But You Must See It

We can talk about these wonderful conveniences, but to really appreciate the great amount of time the Hoosier will save you, you must see and examine these features yourself in our store.

The Vital Part of Your Cabinet

The picture here shows the scientific arrangement of the Hoosier makes it a real helper. Storage space is above and below. There is plenty of unhampered room above and around the aluminum (or porcelain) work-table.

There are no useless little partitions to chop up the space and leave no room for work. Your cabinet must have big table space to work on. The Hoosier gives it.

Every Woman Has a Right to a Hoosier

A small payment down and a small payment each week will bring one to your home.

The Store Where They All Go

For Good Furniture, Fine Rugs and Attractive Window Draperies visit our store and we will illustrate in the most forceful manner our right to claim the finest collection of beautiful things for the home, and sold at a price absolutely impossible at any other place in the city. You will always find at our store the lowest price, the best goods and the most liberal terms, weekly or monthly payments.

The Bass Furniture and Carpet Co.

Heating Stoves and Ranges

rural districts may meet together. The stereopticon is being used extensively in this work and is proving to be of great interest to those people.

The manual training department material is arriving by installment. The large lathes and smaller tools now being set up in the shop. The equipment purchased in this department of the latest type and said to be by those in charge practiced in every detail.

The largest addition to the school has been the normal teachers' training course, with a course of study duplicating the course in the state normal schools and having at its end a life diploma to teach in any school in the state, recognized only recently officially by the state board of education.

At the fourth year of this last named course a two-year state certificate has recently been added to the awards given by the institution. The two-year certificate class is attracting more students than any one other course.

Geology a Feature.

Geology also is proving a feature in the new era of the institution with Professor Cregge at its head already, an assistant, and more room is needed. Plans are under way to make a beautiful park of the two-acre tract recently purchased in front of the administration building. Landscape artists have been employed to lay plans for the beautifying of the plot. This is in accord with the doctrine of beautifying the surroundings of the student emphasized so much in the national and state teachers' associations of late years. President Evans developed a campus in the state school where he has previously been working that became famous among the school men of the state. It is his intention to develop a park at Kendall of the same nature.

The student body of the school is composed of a greater per cent of upper classmen than the majority of the schools of its type in the country. This is one of the great factors causing the expansion of the institution in the various lines.

DAWSON NEWS ITEMS.

Green Wilson, the Dawson carpenter, has been one of the busiest men in town this summer.

On account of the drought there are only three living wells in town and many are hauling water from the S. S. Godman well.

James Duff, accompanied by his nephew, has gone for a week's visit to Pittsburg, Kan.

Guy Thomas and family moved to Tulsa the first of the week.

Dawson has been a quiet town for some time. Little drinking or other disorder has been going on.

Russell, 4-year-old son of Mr. and Mrs. Harry Weber, is ill with typhoid.

James Trimble and son Leo have been taking the baths at Claremore the last week.

A literary society has superseded

LARGE BLISTERS COVERED BODY

Itching and Burning. Could Not Rest at Night. Scap Scaly and Sore. Hair Came Out.

HEALED BY CUTICURA SOAP AND OINTMENT

"My skin began itching and burning, and soon my entire body was covered with large brown blisters which were covered with small white ones. It was impossible to stop scratching them, and I could not rest at night. My clothes rubbed and irritated the eruptions and this tormented me most of all. My scalp was affected, and was scaly and sore and my hair became dry and lifeless, and came out."

"Then I used Cuticura Soap and Ointment. After applying them four times I could rest at night, and after using four cakes of Cuticura Soap and three boxes of Cuticura Ointment I was healed. (Signed) Miss Bessie May Maynard, Luther, Okla., March 29, '16."

Sample Each Free by Mail
With 32-p. Skin Book on request. Address post-card: "Cuticura, Dept. T, Boston." Sold throughout the world.

The Boys' Pastime club and the program for Friday night consists of recitations, songs, a debate and a paper. All are invited.

Reverend Broyles, district superintendent, held services at the Presbyterian church last Sunday night and also made arrangements for a new pastor at this place.

George Snoops and family, who have been living near Mohawk, left Saturday evening for Montana.

Next Sunday will be rally day at the Sunday school. A program is prepared and a large crowd is expected.
